Emil Blonsky is the Abomination, a gamma-radiation-spawned monster even more ferocious than the Hulk. Blonsky was originally a spy before using Bruce Banner's equipment to blast himself with gamma rays, mutating into a fearsome creature that Banner's girlfriend Betty Ross called an abomination. The Abomination nearly killed the Hulk in their first battle and has worked alone and with the Hulk's enemies ever since. He has even returned from the dead to attack the Hulk.

The Abomination is one of the Hulk's main enemies and has fought the green-skinned behemoth countless times. His immense strength and power make him one of the Hulk's deadliest foes.
