Some great romances are destined to be. The *Batman/Catwoman* series shows readers the romance between Bruce Wayne and Selina Kyle as it changed over their lives, but what about their connections from *before* they became costumed adventurers? This special, meticulously illustrated one-off issue by John Paul Leon (*Batman: Creature of the Night*) traces the life of Selina Kyle from its earliest days to her entry into the criminal underworld, and reveals that Bruce was actually a presence in her life all along. Whether fate or coincidence, this story gives even more reasons why Selina and Bruce's connection is one of the most enduring love affairs in comics.

Now expanded to celebrate the legacy of iconic artist John Paul Leon, whose untimely passing after a long battle with cancer shocked the comics world, this special will feature his work completed for the original story and tributes created in his name by some of his closest friends and admirers.

When our heroes saved the Multiverse from Perpetua in *Dark Nights: Death Metal*, everything was put back where it belonged...and we do mean everything. All the damage from all the Crises was undone, and heroes long thought gone returned from whatever exile they had been in.

Most of them, at least.

Alan Scott, the Green Lantern of the Justice Society of America, has noticed some of his allies are still missing in action, and he's determined to find them. There are others, though, who would rather remain hidden than explain themselves, like Roy Harper, a.k.a. Arsenal, a man who should be dead but now is not. Plus, what does all this mean for the DCU's place in the Multiverse? On opposite sides of a dimensional divide, both Barry Allen and President Superman ponder this question. Not to mention the Darkseid of it all! Or a team of Multiversal heroes called Justice Incarnate!
